PROFESSIONAL PROFILE

Software engineer and Computer Engineering candidate with enterprise delivery experience across MTN Ghana, Affinity Africa, Revna Biosciences, and Nestlé. Led the architecture of a real-time AI risk intelligence platform, built end-to-end financial workflow backends, and automated reporting processes that reduced cycle time by approximately 99%. Strong in Python/Fast API, JavaScript/TypeScript/React, databases, automation, and translating complex business requirements into secure, usable software.

EDUCATION

Ashesi University

BSc. Computer Engineering

Berekuso, Eastern Region

Expected Date of Graduation: May 2027

Relevant Coursework: Design Thinking, Statistics, Calculus I & II, Java Object-Oriented Programming, Database, Data Structures & Algorithms, Python, C & MATLAB programming for engineers, Deep Learning, Embedded Systems, Computer Organization & Architecture, Networks & Communications, Operating Systems, Digital Signal Processing, Control Systems.

ACHIEVEMENTS/AWARDS/HONORS

- | | |
|--|----------------------------|
| • The MasterCard Foundation Scholar Program Scholarship, Ashesi University | Sept 2022 -Jul 2027 |
| • 1 st place winner; Ashesi Career Fair programming competition | March 2026 |
| • Ashesi Dean's List (1st Year – 3rd Year) | Jan 2024-Sept 2026 |
| • Nestlé Ghana Sentiment Analysis Competition – Winning Team | Nov 2024 |
| • 1 st place winner; Computer Programming competition in Niger/Niamey | Apr 2023 |
| • National Best Baccalaureate Student (Awarded by Ministry of Higher Education). | Sept 2022 |

PROFESSIONAL WORK EXPERIENCE

Affinity Africa

Jul 2026 - Aug 2026

Backend Engineering Intern Accra, Ghana (Hybrid)

- Co-developed the end-to-end backend engine for a loan automation platform using FastAPI and MongoDB, converting multi-stage lending operations into structured, auditable workflows.
- Designed APIs and data models spanning loans, documents, batches, assessments and history, decisions, stage SLAs, audit logs, notifications, and configuration.
- Delivered a handoff-ready system within the two-month internship while collaborating closely with product and frontend contributors on integration and workflow behavior.

MTN Ghana

May 2026 - Jul 2026

Quantitative & Predictive Risk Modelling Intern | Technical Lead & System Architect Accra, Ghana

- Led architecture and technical delivery for a four-person team building a real-time risk intelligence platform that replaced manual, subjective assessments with quantitative, traceable analysis.
- Designed ingestion across 18+ news feeds every 15 minutes and a nine-stage AI/NLP pipeline that scored threats and estimated their financial impact in Ghana Cedis.
- Built 90-day forecasting, stress testing across 87 real-world scenarios, and reverse stress testing to identify the exact shock combinations behind a target financial breaking point.
- Enabled up to 10,000 Monte Carlo simulations per scenario, giving leadership a distribution of possible outcomes rather than a single-point estimate; shipped the platform for enterprise decision support.

Ashesi Innovation Lab x Revna Biosciences

Aug 2026 - Sept 2026

Project Manager & Backend Engineer Accra, Ghana

- Lead cross-functional delivery of ROBIN, a role-aware onboarding platform for a unified laboratory, research, and biobank ecosystem, while owning key backend workstreams.
- Translated detailed product requirements into a buildable architecture and implementation roadmap covering workflow orchestration, RBAC, approvals, documents, auditability, notifications, dashboards, and external integrations.
- Design and implement backend services with FastAPI/PostgreSQL and support frontend delivery by designing user workflows.

Nestlé Business Services Accra

Jun 2025 - Aug 2025

Record-to-Report & Automation Intern Accra, Ghana

- Automated KRI and OLI dashboards with Power BI, Excel, Power Automate, and Python, reducing monthly reporting time by approximately 99%.
- Built reusable ETL scripts and reporting templates that reduced manual errors by approximately 10% and improved KPI consistency for 100+ finance users across three teams.
- Documented workflows and trained three colleagues, supporting adoption and operational continuity after handover.

PROJECT AND RESEARCH

Freshman Hub - Lead Developer | *React Native, TypeScript, Node.js, PostgreSQL* 2024 – 2026

- Led development of a cross-platform campus app designed for 500+ students, integrating interactive maps, buddy matching, support services, session booking, and secure OTP-based access.
- Built API and data workflows with Node.js/PostgreSQL and helped drive secure authentication and database migration work for institution-hosted deployment.

Moussey Language NLP | *Python, NLP, Data Engineering*

Aug 2025 - May 2026

- Collected, cleaned, and annotated data for a low-resource African language; developed a digital dictionary and prototype machine-translation workflow to broaden access to language technology.
- Structured a reusable corpus and processing pipeline to support future dictionary expansion and language-model experimentation.

DiscreteLearn | *React, TypeScript, Vite, Firebase*

Nov 2024 - Dec 2024

- Co-built and deployed an interactive learning platform with three structured courses, 20+ quizzes, and a resource library, reaching 50+ users in its launch month.

LEADERSHIP AND CO-CURRICULAR ACTIVITIES

President, Mastercard Foundation Scholars Council, Ashesi University Sept 2026 – Sept 2027

- Lead and represent scholar representation, welfare, academic support, and cross-functional council initiatives.
- Act as the bridge between scholars and the admissions and financial aid office.
- Advocate for scholars' needs and collaborate with university leadership.

President, International Students Association (ISA), Ashesi University

Jan 2025 – Jan 2026

- Lead and represent **400+ international students**, fostering inclusivity and cultural exchange.
- Organize events, workshops, and networking opportunities to support students.
- Advocate for international students' needs and collaborate with university leadership.

Lead, Ashesi AI club, Ashesi University

Jan 2025 – Sept 2026

- Direct club initiatives on **AI research and applied projects**.
- Organize hackathons, coding challenges, and AI awareness events.
- Mentor members in machine learning, coding best practices, and project execution.

Tutor, Mathematics & Computer Programming, Ashesi University

Jan 2024 - Present

- Provide **one-on-one and group tutoring** to help students master calculus & Programming concepts.
- Simplify complex topics like **differentiation, integration, limits and continuity, OOP, Algorithms**.
- Develop problem-solving strategies to improve student understanding and performance.

SKILLS/INTERESTS/TRAININGS

- **Programming Languages:** Python, TypeScript, JavaScript, SQL, C, C++, Java, HTML/CSS
- **Backend & web:** FastAPI, Node.js/Express, FAST APIs, React, Next.js, React Native/Expo, Socket.IO
- **AI/ML:** pandas, NumPy, scikit-learn, PyTorch, NLP, CNNs, forecasting, Monte Carlo simulation
- **Data Tools & Cloud:** Power BI, Power Automate, Excel, Microsoft Azure, AWS S3.
- **Databases & infrastructure:** PostgreSQL, MongoDB, MySQL, Redis, Docker, Git/GitHub, Linux.
- **Technical training:** ALX Software Engineering Program (12 months); Qwasar Silicon Valley Software Engineering; IBM Data Analysis Professional Certificate; Python for Everybody - University of Michigan
- **Languages:** French (native), English (fluent), Spanish (intermediate)
- **Soft Skills:** Teamwork, Public speaking, Adaptability, Leadership & Communication
